

MO KAIF SHEKH

Full-Stack Developer

Mumbai, Sion | kaifs.dev@gmail.com | +91 7523851208 / +91 7506917042 | linkedin.com/in/kaif752 | github.com/kaif752

SUMMARY

Full-Stack Developer with 1+ year of experience building enterprise-grade web applications across LMS, TPRM, and cybersecurity phishing simulation platforms. Skilled in React.js, Next.js, Node.js, Express.js, Golang, MySQL, HTML5, CSS3, and cloud deployment on AWS. Specialized in secure authentication (JWT, OAuth 2.0, RBAC, Azure AD SSO), API performance optimization with Redis, and scalable RESTful API design. Experienced working in Agile teams to ship production-grade software on schedule.

TECHNICAL SKILLS

- Languages: Java, JavaScript, TypeScript, Golang, PHP, Python, .NET, .NET Core
- Frontend: React.js, Vue.js, Next.js, Tailwind CSS, Shadcn/UI, HTML5, CSS3
- Backend: Node.js, Express.js, Spring Boot, NestJS, Golang
- Databases: MySQL, PostgreSQL, MongoDB, Redis
- Cloud & DevOps: AWS (EC2, S3, RDS), Docker, Kubernetes, GitHub Actions, GitLab CI/CD, CI/CD Pipelines
- API & Auth: RESTful APIs, JWT, OAuth 2.0, RBAC, SSO, Stripe, Razorpay, Cloudinary
- Practices: Agile/Scrum, SDLC, Code Review, Unit Testing, Microservices Architecture, System Design
- Tools: Git, GitHub, GitLab, Postman, Visual Studio, Figma

EXPERIENCE

Full Stack Developer | *Risqora Secure Pvt. Ltd.*

Sep 2025 – Present

- Built and maintained 3 enterprise-grade multi-tenant platforms (LMS, TPRM, Phishing Security Awareness Platform) using Golang, HTML, CSS, React.js, Next.js, Node.js, Express.js, MySQL, PostgreSQL, Redis and AWS
- Designed and implemented 50+ RESTful APIs covering campaigns, quizzes, courses, certificates, reporting, analytics and user authentication
- Improved API response times by 40% through Redis caching, query optimization and efficient database design
- Implemented secure authentication using JWT, OAuth 2.0, RBAC and Microsoft Entra ID (Azure AD) SSO
- Containerized applications with Docker and deployed production services on AWS EC2, RDS, and S3; maintained CI/CD pipelines for automated builds and deployments
- Collaborated with a cross-functional team of 10 developers using Agile practices, Git, GitHub, and Postman to deliver scalable applications on schedule

Full Stack Developer Intern | *SNZ Cyber Intellects Pvt. Ltd.*

Jun 2025 – Aug 2025

- Built responsive UI components and RESTful APIs using React.js, Node.js, Express.js and MySQL
- Fixed bugs and optimized database queries to improve application stability and performance
- Integrated backend services and collaborated with senior developers using Git and Postman
- Followed Agile and modern SDLC practices in a fast-paced, collaborative team environment

PROJECTS

Third-Party Risk Management (TPRM) Platform — *React.js, Node.js, express, next.js, Golang, PostgreSQL, Redis, OAuth 2.0, SSO*

- Built an enterprise-grade platform for vendor onboarding, risk assessments, compliance tracking, and audit reporting dashboards
- Implemented OAuth 2.0 and SSO authentication for secure multi-user access
- Optimized performance using Redis caching and efficient PostgreSQL query design

Learning Management System (LMS) — *React.js, Node.js, Express.js, MySQL, Redis, AWS*

- Developed a multi-tenant LMS with campaign, quiz, course, and certificate management modules
- Built reporting and analytics dashboards and role-based user management with AWS deployment

Phishing Simulation Security Awareness Platform — *Golang, HTML, CSS3, JavaScript, Bootstrap, MySQL, AWS*

- Developed a phishing simulation platform for cybersecurity awareness training with campaign management, user tracking and email analytics dashboards

EDUCATION

Bachelor of Computer Applications (BCA)

Aug 2022 – Jul 2025

Ewing Christian College

CERTIFICATIONS & LANGUAGES

- Full-Stack Web Development — Athworth Academy, Noida
- Fluent in Hindi and English; effective communicator across diverse, cross-functional audiences
